

Komodo-Alor Liveaboard

The Indonesian archipelago, located within the Coral Triangle, boasts the world's highest marine biodiversity and offers truly unique diving in a picturesque island setting. This region is truly a dive mecca and high on most diver's wish-list.

Arenui has chosen the best dive sites based on the best times of year to explore these world famous destinations. While diving around the Komodo National park, we enjoy excellent muck diving, but also outstanding pelagic action. We will explore all the popular dive spots such as Gili Lawa Laut, where we dive at Crystal Rock and Castle Rock (great opportunity to try out a 'reef-hook' dive, as you secure yourself to the rock and float in the current, watching the schooling fish and predator/prey action). Plus, we visit a dive site in the shadow of an active volcano to feel the bubbling hot springs, and take a stroll on land with Komodo's giant lizard population. To sum up, these cruises are all about diversity, with exhilarating drift diving, interesting muck diving, encounters with pelagics (mantas, sharks, whale sharks, sunfish), macro attractions (pygmy seahorses, blue-ringed octopus, frogfish, ghost pipefish), shallow reefs, walls, pinnacles, seamounts, and pristine hard/soft corals.

The Arenui is a traditional and magnificent Phinisi – a classic Indonesian wooden sailing vessel – set to explore the majestic underwater world of the Indonesian archipelago. If you've dreamed of setting sail aboard an old-fashioned pirate ship (but with all mod-cons) then this is for you. If you want to experience the culture and style of the country, as you sail through its beautiful islands, then this trip is for you.
