

## Raja Ampat Liveaboard

Raja Ampat means 'Four Kings'. In an archipelago of over 1,500 small islands there are four main islands or 'kings' – Waigeo, Salawati, Batanta, Misool. The majority of Raja Ampat is in Marine Protected Areas. These islands usually experience varying visibility depending on the weather conditions and warm water around 81-86F.

The fish life here is profuse with napoleon wrasses of all sizes, baby white tip reef sharks sleeping under the table corals, schooling batfish, fusiliers, schooling barracuda and batfish and for the lucky ones maybe a manta ray circling the cleaning stations. We'll look for pygmy seahorses, flatworms and nudibranch and beautiful soft corals in the shallows, where we even have seen the famous "walking shark" – epaulette shark. This is just a sampling of what you can see on the 37 dives included with this trip.

We will also enjoy a land excursion to Sawandarek Island to see the traditional way of life for these island people.

The Arenui is a traditional and magnificent Phinisi – a classic Indonesian wooden sailing vessel – set to explore the majestic underwater world of the Indonesian archipelago. If you've dreamed of setting sail aboard an old-fashioned pirate ship (but with all mod-cons) then this is for you. If you want to experience the culture and style of the country, as you sail through its beautiful islands, then this trip is for you.
